Press Release

Advantage Data Systems Achieves Microsoft Certified Partner Designation

Chillicothe, Ohio, February, 11 2008: Advantage Data Systems has earned the designation of Microsoft Certified Partner, which identifies companies with Microsoft expertise and training to support Microsoft products.

As a Microsoft Certified Partner, Advantage Data Systems gains access to a rich set of solutions designed to help its customers realize their full business potential. In meeting the stringent set of criteria necessary for achieving this designation from Microsoft, ADS offers customers the peace of mind of knowing they will benefit from the highest levels of technical expertise, strategic thinking and hands-on skills. Acceptance into the Microsoft Certified Partner program requires extensive training and testing on multiple facets of Microsoft products including all operating systems and applications. Certified technicians train for countless hours in order to meet the skill requirements. Participation in this program demonstrates Advantage Data Systems' continuing commitment to providing only the highest level of customer satisfaction through expanded quality programs and training.

Moreover, ADS as a Certified Partner is provided with software licensing, training, marketing tools, technical support, and other solutions designed to improve operations and customer support and to deliver a better customer experience.

About Advantage Data Systems
